

# **The National Anthem of Holtania**

## ***Now Our Lives Have Gained Its Meaning***

Now our lives have gained its meaning  
Christ our Lord to us have behold  
Freedom's light down upon is gleaming  
This land's liberty shall be controlled  
This was granted us from God  
To be the light in tyranny's smog  
We are the guards of freedom frod

Splendid lands of wealth and power  
Many claiming far and near  
Yet none seeming to have appear  
But such a wonder happened here  
Our manumission shall not disappear  
To arms for our nation we endear  
To our banner we shall adhere

The Lord was holy as He was pure  
Our sin He has certainly cure  
Man's fate by Him surely is secure  
Despot lead with false allure  
We free men are strangers to fear  
Hail oh cross and thorns and spear  
Tyrants woe your end is near
